

The florist gets paid
at time of purchase.

Why not you?

mPay Gateway delivers patient payments at the point of care.

EVERYTHING A PRACTICE NEEDS

With patient payments rapidly becoming up to 25% of a provider's revenue stream, managing patient payments is increasingly complex. Not just co-pays, but deductibles, co-insurance and excluded services all fall on you to collect from your patients. mPay Gateway helps you simplify patient payments at the point of care.

With mPay Gateway's simple to use software you can manage all patient payments in one place. Obtaining a patient's credit card at the time of the office visit to authorize payment improves receivables, decreases bad debt and virtually eliminates billing costs.

FEATURES

- Real-time eligibility and benefit information
- Accept any form of payment; cash, check and charge
 - Payment Plans
 - Practice Management interface
- Secure patient authorization for delayed settlement

BENEFITS

Practice:

- Improve collections rates
- Reduce bad debt
- Reduce cost and complexity of statements
- Improve patient satisfaction

Patients:

- Simplify payments
- Eliminate confusion of multiple bills
- Clear summary of charge
- Only pay exactly what is owed

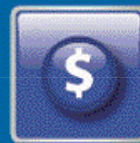

Step 1: Calculate

mPay Gateway's payment calculator instantly determines the service charges for your patient.

Step 2: Validate

Review summary of charges with your patient, then, swipe their payment card.

Step 3: Collect

When you receive the provider remittance, use mPay Gateway to collect the exact amount patient owes. The money will be sent directly to your bank.

Visit mpaygateway.com

mPay Gateway develops financial technology products and services to support health care's complex and unique payment environment. mPay Gateway provides health care providers with a payment solution that enables collections from patients at the point of care, regardless of the patient's third party payer affiliation. mPay Gateway is a PCI certified acquiring card processor.
